

School Attorneys

The Board of Education may enter into an agreement for legal services with a specific attorney or law firm. The school attorneys serve on a retainer or other fee arrangement as the Board of Education and attorneys determine in advance.

The attorneys will:

1. Serve as counselor to the Board of Education at all regular meetings and at special meetings when requested by the Superintendent or Board President.
2. Represent the District in any legal matter as requested by the Board of Education.
3. Provide written opinions on legal questions as requested by the Superintendent or Board President.
4. Approve, prepare, or supervise the preparation of legal documents and instruments and perform such other legal duties as the Board of Education may request.
5. Provide telephone consultation on legal questions with the Superintendent, Board President, or individuals authorized for such consultation by the Superintendent and/or Board President.
6. Represent the District in any legal matter as authorized by the Superintendent until the Board has an opportunity to consider the matter.
7. Prepare a budget for specific legal services or matters as required by the Board President or Superintendent.

The Board of Education shall retain the right to consult or employ other attorneys on matters of special concern and to terminate the service of any attorney.
