

Jerry Coyne

Evolutionary Biologist

Coyne graduated with a B.S. in biology from the College of William & Mary in 1971. His graduate work at Rockefeller University under Theodosius Dobzhansky was interrupted when he was drafted. He then earned a Ph.D. in biology at Harvard University in 1978, studying under Richard Lewontin, and went on to do a postdoctoral fellowship at the University of California, Davis with Timothy Prout. He was awarded the Guggenheim Fellowship in 1989, was elected to the American Academy of Arts and Sciences in 2007.

Coyne has served as President (2011) and Vice President (1996) of the Society for the Study of Evolution, and as Associate Editor of *Evolution* (1985–1988; 1994–2000) and of *The American Naturalist* (1990–1993). As of 2015 he teaches evolutionary biology, speciation, genetic analysis, social issues and scientific knowledge, scientific speaking and writing.

His work is widely published in scientific journals as well as in such mainstream venues as *The New York Times*, the *Times Literary Supplement*, and *The New Republic*. His research interests include population and evolutionary genetics, speciation, ecological and quantitative genetics, chromosome evolution, and sperm competition.
