

Kathryn Sullivan

Astronaut

Ms. Sullivan was the first American woman to perform a space walk (October 11, 1984). She participated on 3 space flights. Her first was the 13th NASA Space Shuttle flight. Her second flight was the 35th mission of the American Space Shuttle program which launched the Hubble Space Telescope in Earth's orbit (April 24, 1990). Her final mission was the 1992 Space Shuttle Atlantis. This mission launched March 24, 1992 and returned April 2, 1992. The purpose of the mission was to conduct atmospheric conditions. Ms. Sullivan started her career with the U.S. Naval Reserves as an oceanography officer and retired as a Captain in 2006.
