

Sallie W. (Penny) Chisholm

Biological Oceanographer

Sallie W. (Penny) Chisholm is a U.S. biological oceanographer at the Massachusetts Institute of Technology. She is an expert in the ecology and evolution of ocean microbes. In 1985 her team discovered *Prochlorococcus*, which is the smallest and most abundant photosynthetic cell on the planet. In 2013 she received the National Medal of Science by President Obama. Her advice to students: "Follow what interests you and it will lead you places you never imagined!"
