December 3, 2015

President and Members of the Board of Education and Members of the Community Community High School District 99 Downers Grove. Illinois

The Comprehensive Annual Financial Report of Community High School District 99, Downers Grove, Illinois, as of and for the year ended June 30, 2015, is submitted herewith. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data as presented is: (1) accurate in all material aspects; (2) presented in a manner designed to fairly set forth the financial position and results of operations of the District, as shown by the disclosure of all financial activity of its various funds; and (3) that all disclosures necessary for maximum public understanding of the District's financial status have been incorporated in the report.

The Comprehensive Annual Financial Report is presented in three sections: Introductory, Financial, and Statistical. The Introductory Section includes this transmittal letter, the District's organizational chart, a list of principal officials, and the Certificate of Excellence in Financial Reporting from the Association of School Business Officials International. The Financial Section includes Management's Discussion and Analysis, the basic financial statements, notes to the financial statements, and the auditors' report on these items, as well as Required Supplementary Information (RSI) and Other Supplementary Financial Information (OSFI). RSI, which is unaudited, includes supplementary information relating to pension and other postemployment benefits, budgetary schedules, and notes to the RSI. OSFI, which is also unaudited, includes combining and individual fund schedules. The Statistical Section (unaudited) includes selected financial and demographic information, generally presented on a multiyear basis.

GAAP/MD&A

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Community High School District 99's MD&A can be found immediately following the report of the independent auditors.

District Profile

Community High School District 99 was formed in 1923. The District is a suburban school district located in south central DuPage County, which covers 31.25 square miles comprised of the Villages of Downers Grove and Woodridge and portions of the communities of Oak Brook, Lombard, Darien, Lisle, Westmont, and Bolingbrook. The District maintains two high schools (grades 9-12) in addition to a small transitional life skill facility and currently serves 4,944 students. The District is primarily residential with substantial commercial areas as well. Several industrial parks are located in the District, with the major industries employing more than 14,800 people. Numerous retail areas provide for the shopping needs of District residents. Housing includes many older, well-kept frame buildings, new subdivisions with some upper income homes, and many apartments and condominiums.

The District offers a comprehensive high school curriculum including a full range of vocational and technical courses, special education programs, and a gifted education program including advanced placement courses in twenty-two different subjects. Both of the District's high schools sponsor a variety of athletic teams and co-curricular activities. The District also offers to staff an extensive professional development program, including a mentoring program, induction program, professional appraisal system, and numerous professional workshops.

Reporting Entity

Generally accepted accounting principles require that the financial reporting entity include (1) the primary government, (2) organizations for which the primary government is financially accountable, and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Community High School District 99 is a municipal corporation governed by a Board of Education, which is elected by the public and has the exclusive responsibility and accountability for the decisions it makes. The District has the statutory authority to adopt its own budget, to levy taxes, and to issue debt without the approval of another government. It has the right to sue and be sued, and has the right to buy, sell, lease, or mortgage property in its own name. Based on these criteria, the District is considered a primary government and there are no other organizations or agencies whose financial statements should be combined and presented with these general purpose financial statements.

Accounting Systems and Budgetary Control

The District's funds report on the modified accrual basis of accounting, which is applied to the District's accounting records. The notes to the financial statements expand upon the modified accrual basis and upon all District accounting policies and procedures. All District funds are included in this report.

This presentation allows the reader to obtain an overview of the District's financial operations by viewing the basic financial statements, in the front section of the report. Detailed presentations of the basic financial statements are available throughout the remainder of the report. All of the figures used in the following discussion were obtained or derived from the financial statements attached herewith.

The District's management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles.

The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

Budgetary control is maintained at the department level within each building by the encumbrance of estimated purchase amounts prior to release of purchase orders. Purchase orders, which exceed the available account balances, are not approved until the building principal reapportions his budget. All outstanding encumbrances lapse at year-end.

Monthly building level expenditure reports are provided to each principal. In addition, monthly expenditure and revenue reports are provided to the Board of Education. On a quarterly basis, detailed public presentations are also made to the Board, at its regular business meeting, comparing year-to-date actual account balance activity with the budgeted amounts.

The Illinois Department of Revenue attempts to equalize the assessment practices of the 102 county assessors, by annually setting a property tax multiplier. This multiplier is applied to the base assessment of real property to achieve the equalized assessed valuation (EAV) used for taxation.

Real estate tax bills in DuPage County, Illinois, are due in two nearly equal installments. Generally, first installment collections are remitted to the District in June of each year. Second installments are generally remitted in September of each year. Each calendar year based levy is intended to be used in the next immediate fiscal year that begins on July 1. Accordingly, the 2014 levy is intended for the fiscal year beginning July 1, 2015.

First installment tax collections of the 2014 tax levy were \$39.4 million, representing 49.2% of the total levy, and were deferred to the 2015-16 fiscal year. This compares to the prior year's first installment collection of \$38.6 million which was 48.9% of the total 2013 tax levy.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

The State of Illinois uses a multi-tiered allocation system to determine the amount of General State Aid to be allocated to specific public school districts. The relative real estate property wealth per pupil is the major factor in determining the allocation tier applied to each district.

Districts with the lowest average local taxable property wealth per pupil received up to \$5,330 per pupil in the 2014-15 fiscal year. Districts with the highest wealth per pupil received a "Flat Grant" allocation amount of \$218 per pupil in the 2014-15 fiscal year.

Community High School District 99 has a relatively high level of local real estate property wealth per pupil but does not meet the level that would cause the District to be in the Flat Grant tier. The District is part of the "Alternate Method" group, and based on the formula set for that tier, received about \$356 per pupil in the 2014-15 fiscal year. Consequently, the District relies heavily upon its local property tax base to support its operations.

Property tax extension limits (tax caps) have been in place in DuPage County since 1991. Tax caps limit the growth of the District's annual extension of taxes on existing property to the prior year's Consumer Price Index for Urban areas (CPI-U), or 5%, whichever is lower. The CPI-U has ranged between 0.8% and 3.0% over the last five years. Annual CPI-U increases for the last decade have averaged about 2.1%.

The State of Illinois is experiencing its worst financial crisis in several decades. School funding has remained a high priority, but even so, the State does not have sufficient cash on hand to honor normal bill payment schedules. At the end of the fiscal year about \$0.8 million in funding was due and receivable from the State. This amount was higher than last year.

The Local Economy and Long-Term Financial Planning

The total increase in local property taxes that will be available for the District's operations is a combination of (1) the tax cap limit amount and (2) taxes on new construction values added to the tax rolls each year. Increases in the District's assessed values attributable to new construction have ranged from 0.3% to 0.6% over the last five years. The District anticipates new construction to average about 0.5% over the next five years.

The calendar years 2013 and 2014 CPI-U increase factors were 1.5% and 0.8% respectively. These factors will be used to limit the 2014 and 2015 calendar year levies and, in turn, impact property tax increases for the 2015-16 and 2016-17 fiscal years, respectively. The District has developed financial forecast estimates of 1.7% for this index for the 2015 through 2017 calendar years thereby affecting respective forecasted revenues for fiscal 2017-18 through 2019-20.

The combined tax cap and new construction increase amount is expected to be about 2.1% in fiscal year 2015-16 and 1.3% in fiscal year 2016-17. Following that, the annual increase is expected to be about 2.1%. The local economies of those communities served by the District are expected to remain relatively strong and generally grow at a rate slightly in excess of the average national cost of living.

The financial condition of the State of Illinois raises concerns over the ability of the State to maintain support levels of General State Aid and mandated categorical funding. General State Aid is discretionary and supports a large number of educational programs while mandated categorical funding is limited to more specific areas such as special education and transportation services. To address this concern and as a precaution, the District is assuming overall State support will be reduced by \$2.0 million, or about 40%, over one of the next several fiscal years to alleviate the financial problems incurred by the State. The State can do this by either reducing funding or by shifting responsibility for costs over to individual districts. In preparation for this event, the District reduced expenditures and raised some local revenues, such as registration fees, to create a \$2.0 million buffer in the operating budget to prepare for a possible reduction in State funding. Each year the State delays in reducing support, the District has used the surplus to either strengthen reserves, pay down long term debt or address larger capital projects in order to strengthen the overall stability of the District.

Expenditure changes for the next several years are expected to be closely aligned with changes in the District's revenue level. This is due to the fact that increases in all major employment and purchased service contracts are tied to the same inflation factor (CPI-U) which limits the largest component of our revenue stream. Student enrollment levels are expected to rise, but only very gradually, over the next several years which should also help the District control expenditures.

Ongoing building infrastructure and site needs and/or desired improvements are addressed through long-term planning documents referred to as the Master Facility Plan (MFP) and the Master Site Plan (MSP). Our main North Campus building was originally built in 1928 with larger additions made in the 1930's and in 1956. Our South Campus building was built in 1964 with a large addition made in 1970. Pool structures were added to each campus in 1975. In 2000, the District completed a \$60 million renovation and expansion of both campuses addressing all building capacity and infrastructure issues at that time. More recently, the MFP process helped us identify and complete an upgrade of the boilers, domestic water lines and all original HVAC systems at the South Campus. The MSP was used in 2012 and 2013 to coordinate expansion of the North Campus site and to improve safety and utilization aspects for the areas around each campus. In 2014, a new 10,000 square foot facility was completed to serve our Transitional Life Skills students. Funding for all critical capital projects has been identified through the use of planning tools and is not expected to have any negative impact on the District's regular annual financial operations in the foreseeable future.

In spite of the financial challenges noted above, the District has a long-term financial forecast reflecting positive operations for at least the next five-years. Further, the District expects to be able to maintain a stable level of fund balances into the future by continuing a careful scrutiny and development of the annual budget. Approvals of new initiatives and curriculum enhancements will only occur when adequate funding has been identified that will support any proposed new program or service level.

Major Initiatives

The District has operated under a philosophy of keeping expenditure growth in line with revenue growth and has done so over for more than eighteen years. Reductions of fund balances have occurred during this period, but only for planned non-recurring expenditures such as special capital project initiatives. In order to keep operating expenditure growth in check, District 99 was among the first Illinois schools to directly link increases in all major employee compensation contracts to changes in the Consumer Price Index for all Urban Consumers (CPI-U). Increases in larger purchased service contracts, such as those for cafeteria operations management and student transportation services are also tied to the CPI-U factor.

This management practice has allowed the District to maintain a more stable educational program for its students and community. In addition, other expenditure control adjustments were made so that certain capital improvements could be funded from operations without the need to ask our taxpayers for an increase. The renovation of 14 science labs and a fine arts lab, a major HVAC/boiler replacement project and major site safety projects have all occurred in the last six years. In the 2012-13 fiscal year, an expansion of our North Campus was completed. In 2013-14, our Transition Program students were provided with a new state-of-the-art facility. These projects represent \$28.0 million worth of improvements, funded with revenue sources other than those which would have increased the burden on our local taxpayers. The District intends to continue this approach as it addresses other significant initiatives in the foreseeable future. In 2015-16, the District rolled out a 1:1 chromebook learning device program for all students without raising property taxes.

Independent Audit

The School Code of Illinois and the District's adopted policy require an annual audit of the financial statements of all funds of the District. The audit is performed by independent certified public accountants, selected by the District's Board of Education. The independent auditors' report has been included in the financial section of this report.

Award and Acknowledgements

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its Comprehensive Annual Financial Report, for the fiscal year ended June 30, 2014. This was the sixteenth consecutive year that the District has received this prestigious award. In order to be awarded this Certificate, the District published an easily readable and efficiently organized Comprehensive Annual Financial Report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

The Certificate is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the program requirements and we are submitting it to ASBO to determine its eligibility for a fiscal year 2015 Certificate.

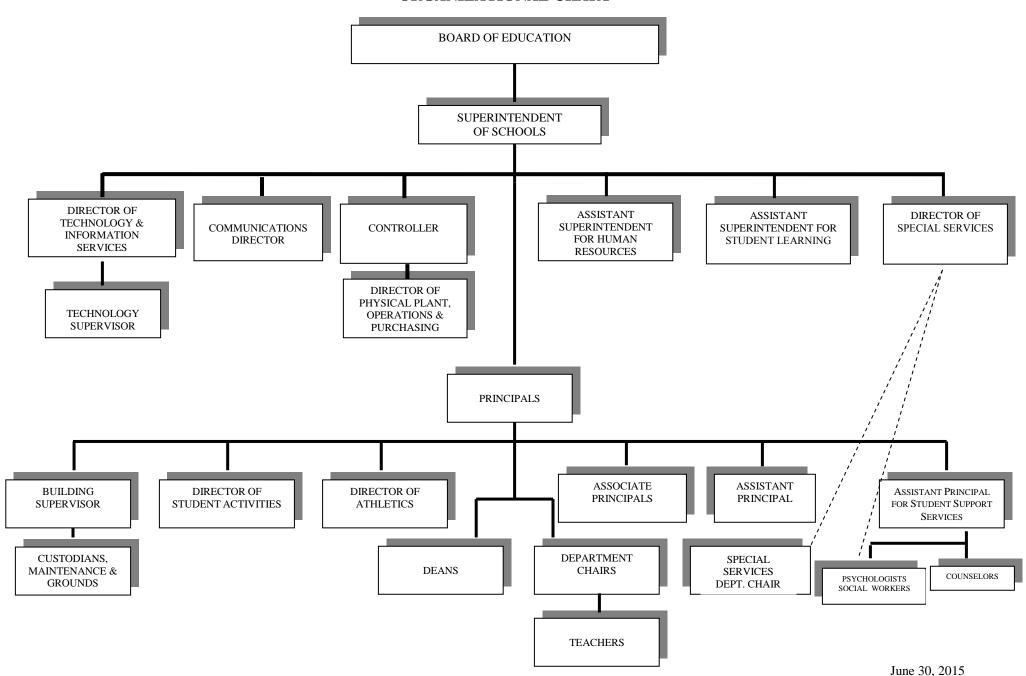

We have prepared this Comprehensive Annual Financial Report to provide a more meaningful financial presentation to our Board of Education, local citizens, and interested outside investors. The preparation of this report would not have been possible without the dedicated services of the entire staff of the Business Office. We would like to express our appreciation to all members of the office who assisted and contributed to the preparation of this report. We also extend our appreciation to the members of the Board of Education for their interest and support in planning and conducting the financial operations of the District in a responsible and progressive manner.

Respectfully submitted,

Dr. Mark A. McDonald Superintendent

Mr. Mark Staehlin District Controller

INDEPENDENT AUDITORS' REPORT

The Members of the Board of Education Community High School District 99 Downers Grove, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Community High School District 99 (the District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

The Members of the Board of Education Community High School District 99 Downers Grove, Illinois

(Continued)

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Community High School District 99, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As discussed in Note O to the financial statements, deferred outflows, long-term liabilities, and net position as of July 1, 2014 have been restated as a result of an adjustment due to the implementation of the Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27 (GASB 68) and GASB Statement No. 71, Pension Transition For Contributions Made Subsequent to the Measurement Date - an Amendment of GASB Statement No. 68 (GASB 71). Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 18, the Illinois Municipal Retirement Fund data on pages 70 through 71, Teachers' Retirement System data on pages 72 through 73, the other postemployment benefits data on page 74, and budgetary comparison schedules and the notes to the required supplemental information on pages 75 through 97 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Members of the Board of Education Community High School District 99 Downers Grove, Illinois

(Continued)

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other schedules listed in the table of contents as the introductory section, statistical section, and the supplementary financial information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary financial information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information for the year ended June 30, 2015 has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary financial information for the year ended June 30, 2015 is fairly stated, in all material respects, in relation to the basic financial statements as a whole for the year ended June 30, 2015.

We also have previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the District, as of and for the year ended June 30, 2014 (not presented herein), and have issued our report thereon dated December 19, 2014, which contained unmodified opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The Schedule of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual for the Capital Projects Fund and the Debt service Fund for the year ended June 30, 2014 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2014 financial statements. The Schedule of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual for the Capital Projects Fund and the Debt Service Fund have been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual for the Capital Projects Fund and the Debt Service Fund for the year ended June 30, 2014 are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2014.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

(Continued)

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 3, 2015 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Community High School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

This section of the Community High School District 99 annual financial report presents management's discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2015. Please read it in conjunction with the transmittal letter found in the introductory section and the District's financial statements.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB).

Financial Overview

- The District's total assets were \$178.7 million.
- Total gross capital assets increased by \$4.0 million during the year and were \$131.0 million.
- Accumulated depreciation was \$41.2 million and \$38.0 million at June 30, 2015 and 2014, respectively.
- The District's deferred outflows, consisting of \$.8 million in prior deferred loss on refunding of bonds and \$4.0 million in deferred pension liability.
- The District's total liabilities were \$67.8 million.
- Long-term liabilities decreased by \$4.5 million and other liabilities decreased by \$.1 million in FY 2015.
- The Districts deferred inflows, consisting of \$79.3 million in property taxes levied for a future period and \$1.7 million related to pensions.
- The total net position increased by \$5.1 million to \$34.8 million during the year.
- General revenues were \$82.0 million and total expenses net of program revenues were \$76.9 million.
- Expenses for total governmental activities, net of program revenues, increased by \$8.5 million, or by about 8.6%, compared to FY 2014.
- Investment earnings from governmental activities were \$91,000 for FY 2015 and \$116,000 for FY 2014.
- Program revenues increased by approximately \$6.2 million, or 25.6%, compared to FY 2014.
- Implementation of GASB pronouncements 68 and 71 was required for this year. Accordingly, the District added new information pertaining to net pension liability for IMRF and TRS for FY 2014 and FY 2015. As a result of this implementation, net position was restated as of July 1, 2014.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements include two kinds of statements that present different views of the District:

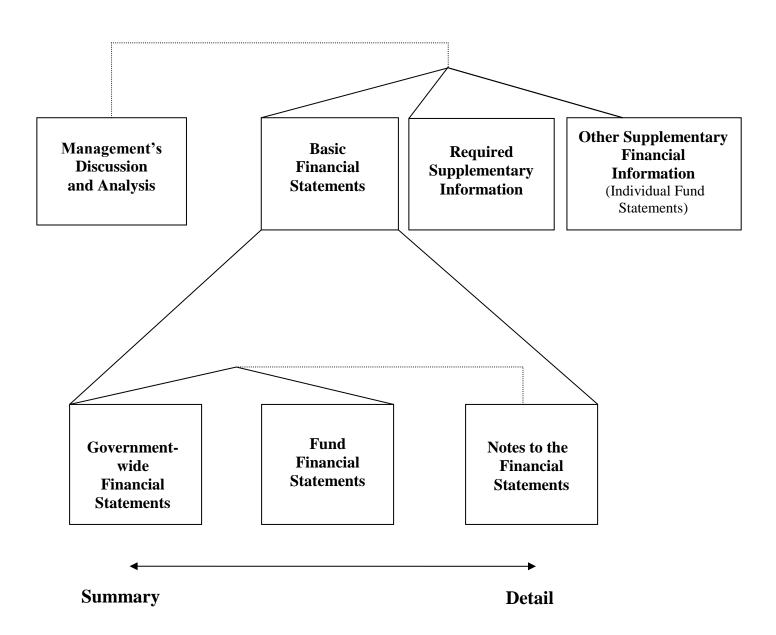

- The first two statements are *government-wide financial statements* that provide a *long-term* view of the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the government-wide statements, with a short-term view.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The notes are followed by a section of supplementary information that further explain and support the basic financial statements.

Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Figure A-1
Organization of Community High School District No. 99 Annual Financial Report

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

Figure A-2 Major Features of the Government-wide and Fund Financial Statements Government-wide Fund Financial Statements				
	Statements	Fund Financial S	otatements	
	Statements	Governmental Funds	Fiduciary Funds	
Scope	Entire District (except fiduciary funds)	The activities of the District, such as General and Operations and Maintenance, that are not proprietary or fiduciary.	Instances in which the District administers resources on behalf of someone else, such as student activities monies.	
Basic financial statements	Statements of net positionStatement of activities	 Balance sheet Statement of revenues, expenditures, and changes in fund balance. 	 Statement of fiduciary net position Statement of changes in fiduciary net position 	
Accounting Basis and measurement focus.	Accrual accounting and economic resources focus.	Modified accrual accounting and current financial focus.	Accrual accounting and economic resources focus.	
Type of financial information	All assets, deferred outflows, liabilities, and deferred inflows, both financial and capital, short-term and long-term.	Generally assets/deferred outflows expected to be used up and liabilities/deferred inflows that come due during the year or soon thereafter; no capital assets or long-term liabilities included.	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can.	
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid.	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable.	All additions and deductions during the year, regardless of when cash is received or paid.	

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets/deferred outflows and liabilities/deferred inflows. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

In the current year, the District implemented the Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions (GASB 68) and GASB Statement 71 Pension Transition For Contributions Made Subsequent to the Measurement Date – an Amendment of GASB Statement No. 68 (GASB 71). These Statements established standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expenses on the government-wide financial statements, pertaining to pensions, as of June 30, 2015. In order to implement these new statements, a prior period adjustment, as of July 1, 2014 was required. See Notes to the Financial Statements A.2., J. and O. for more detailed information.

The two government-wide statements report the District's *net position* and how it has changed. Net position – the difference between the District's assets/deferred outflows and liabilities/deferred inflows – is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, one needs to consider additional non-financial factors such
 as changes in the District's property tax base and the condition of school buildings and other
 facilities.

In the government-wide financial statements, the District's activities are all categorized as *governmental* activities. All of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and State formula aid finance most of these activities.

Fund Financial Statements

The District's fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. The District considers all of its governmental funds to be major funds. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law or by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as the Working Cash Account, which is part of the General Fund).

The District has two categories of funds:

• Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash, and other financial assets that can readily be converted to cash, flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information following the governmental funds statements explains the relationship (or differences) between them.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

• *Fiduciary funds*: The District is the agent, or *fiduciary*, for assets that belong to others, such as the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and that such use is authorized by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

Financial Analysis of the District as a Whole

Net position: The District's total net position was \$34.8 million on June 30, 2015, an increase of \$5.1 million compared to \$29.7 million (restated for the implementation of GASB 68 and 71 – see Note O in the notes to the financial statements) as of June 30, 2014. (See Figure A-3).

	Governmen	tal Activities
	<u>2015</u>	<u>2014</u>
Current and other assets	\$ 88,886,070	\$ 89,183,787
Capital Assets, net of depreciation	89,849,750	89,112,732
Total Assets	178,735,820	178,296,519

Total net position (as restated, see Note O)	\$ 34,824,556	\$ 29,731,270

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

The District's financial position is the product of many factors. Our largest revenue source is taxes on assessed property within our boundaries. Property tax caps, which limit increases to the lesser of 5% or the annual increase in the rate of the CPI-U, is the most significant factor limiting revenue growth.

Another factor is the relatively low level of aid and grant support from state and federal sources. Grant and aid funding from those two sources combined was about 25.8% of the District's total revenue for the last fiscal year. However the support level drops to 7.6% when you exclude \$20.4 million of State "On Behalf" pension payments made directly to the Teacher's Retirement System (TRS.)

Finally, investment earnings have also dropped dramatically in the last seven years to a level of only about \$91,000 in the last fiscal year. Over the past ten years, investment revenue has been as high as \$2.3 million per year.

These three major revenue factors, along with several others, have caused the District to make periodic reductions in expenses and service levels in order to maintain a stable overall financial position.

Changes in net position: The District's total revenues were \$112.2 million (See Figure A-4), representing a \$7.3 million increase from last year.

The largest increased item, for both the revenue and expense sections is attributable to increased State retirement "on behalf" contributions made directly to the Teachers' Retirement System of the State of Illinois.

Real estate taxes accounted for most of the District's revenue, equating to approximately 71 cents of every dollar raised. (See Figure A-5.)

Grants and state aid were virtually unchanged. Charges for services raised 2.9% of the total revenues and the remainder came from investment earnings and other sources.

The total costs of all programs and services were \$107.1 million, representing an \$8.5 million increase compared to the previous year.

The District's expenses are predominantly related to instructing, caring for (pupil services) and transporting students (79.5%). (See Figure A-6.)

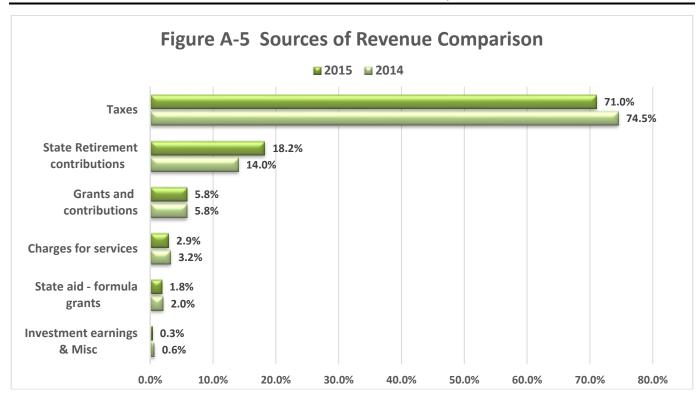

The District's administrative and business activities accounted for 6.0% of total costs. Operations and maintenance expenses were 9.2% of the costs for the year. Other costs, including interest on long-term debt, were 5.3%.

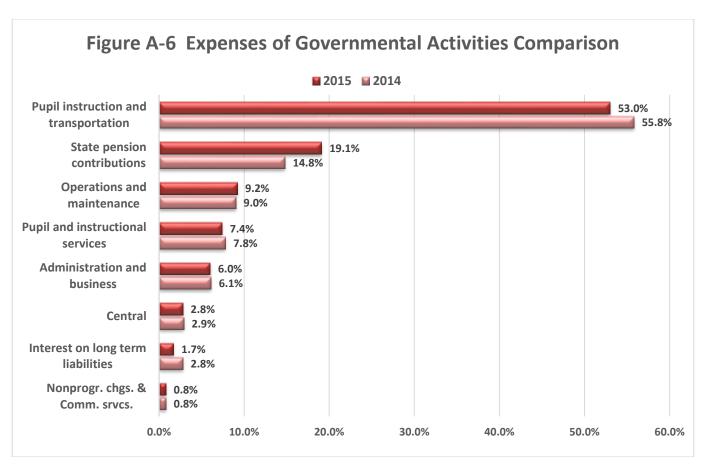

Total revenues exceeded total expenses by \$5.1 million, and resulted in a net position of \$34.8 million at the end of the year.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

Governmental Activities

Although the District's real estate tax base remains very strong compared to many other regions of the State and country, the imposition of property tax extension controls has limited the District's ability to fully access that resource. Increases in the District's tax extension, on existing taxable properties, have been limited to annual increases in the CPI-U (Consumer Price Index for All Urban Users) and have lagged behind the rates of increases in certain expenses incurred by the District. New property, which is added to the tax rolls as a result of new construction occurring within the District's boundaries, has helped the District cope with this financial constraint. Also, annual levies for debt service purposes, which were approved prior to the imposition of the tax extension controls, or later if approved by public referenda, are not subject to the annual limits. During the fiscal year ended June 30, 2015, real estate tax revenues increased by \$1.6 million. State retirement contributions increased by \$5.8 million or 39.6%. State aid-formula grants decreased by 1.8%. All other general revenue items increased by less than 1% or decreased compared to last year.

Figure A-7 presents the cost of major District activities: instruction, state retirement contributions, pupil and instructional services, administration and business, transportation, operations and maintenance, central and other supporting services, community services, non-programmed charges, and interest and fees.

	TOTAL COST OF SERVICES			
	<u>2015</u>	2014	\$ change	% change
Instructional programs	\$53,068,354	\$51,678,773	\$1,389,581	2.7%
State retirement contributions	20,440,963	14,644,970	5,795,993	39.6
Pupil and instructional services	7,977,107	7,652,341	324,766	4.2
Administration and business	6,453,093	6,050,336	402,757	6.7
Transportation	3,715,024	3,314,636	400,388	12.1
Operations and maintenance	9,824,746	8,904,410	920,336	10.3
Central and other supporting services	3,031,178	2,814,750	216,428	7.7
Community services	27,897	26,227	1,670	6.4
Non-programmed charges	804,108	827,840	(23,732)	-2.9
Interest and fees	1,799,405	2,742,944	(943,539)	-34.4
Total	\$107,141,87 <u>5</u>	\$98,657,227	\$8,484,648	8.6%

Figure A-8 shows each activity's *net cost* (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the District's taxpayers by each of these functions.

- The cost of all *governmental* activities this year was \$107.1 million.
- About 3.4% of the cost was financed by the users of the District's programs (\$3.3 million).

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

- The federal and State governments subsidized certain programs with grants and contributions totaling \$26.9 million.
- District's net costs of \$76.9 million, or 71.9%, were financed primarily by District taxpayers.

	NET COST OF SERVICES			
	<u>2015</u>	<u>2014</u>	\$ change	% change
Instructional programs	\$46,205,787	\$45,429,900	\$775,887	1.7%
Pupil and instructional services	7,907,041	7,561,100	345,941	4.6
Administration and business	4,983,288	4,394,521	588,767	13.4
Transportation	2,601,759	2,165,379	436,380	20.2

Interest and fees	1,799,405	2,742,944	(943,539)	<u>-34.4</u>
Total	\$76,948,091	\$74,615,189	\$2,332,902	3.1%

Financial Analysis of the District's Funds

The financial performance of the District as a whole can be better understood through a more detailed analysis of the governmental funds. As the District completed the year, its governmental funds reported a decrease in fund balance of \$1.9 million, resulting in a combined fund balance of about \$2.1 million.

The fund balance of the General (Educational and Working Cash) Fund is \$1.8 million reflecting a decrease of \$30.1 million for the year ended June 30, 2015.

Total revenues decreased by \$2.8 million, or 3.5%, during the fiscal year. The net revenue change is primarily due to two major factors. First, the general levy was reduced by \$8.8 million. This was purposefully done in order to allow levies in other Governmental Funds to be increased. This levy offset is required so that the aggregate levy of all funds subject to the Property Tax Extension Limitation Act remain within the constraints of that law. All other local revenues, inclusive of the Special Education levy and taken in the aggregate, dropped by 2.8% compared to last year.

The second major factor was that On Behalf Payments to TRS from the State increased by \$5.8 million, representing a 39.6% increase in that source. Total State revenues, aside from the State retirement contribution, increased by 4.0 % when taken in the aggregate. Total federal revenues increased by 10.4% for the year. Total expenditures for the General Fund increased by \$10.3 million, or 13.0%, for the 2014-15 fiscal year. The State retirement contribution increase of \$5.8 million is a major factor for this increase.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

Other increases in the Instruction-Regular Programs area, specifically Employee Benefit costs for health insurance and a \$1.8 million expenditure for new technology for students, also contribute significantly to the overall increase. Other financing uses in this fund reflect \$15.9 million in transfers to reduce or eliminate fund deficits in other funds and \$1.5 million transferred to the Debt Service Fund for retiring debt incurred for capital projects and capital lease obligations.

The Operations and Maintenance Fund reflects an increase in fund balance of \$24.2 million. Property tax revenue was \$20.1 million for the year ended June 30, 2015 and is \$8.4 million higher than that of the previous fiscal year. The levy in this fund has been purposefully raised in recent years to reduce the deficit in this fund. Expenditures in this fund increased by \$1.0 million this year due to a planned increase in purchased services and capital outlay to address facility construction and maintenance projects. In addition to the increased tax levy, \$16.9 million was transferred from other funds to help offset the deficit in this fund. The fund deficit at year end is \$1.2 million which is intended to be offset by future tax levies. During the year, this fund transferred \$.6 million to the Debt Service Fund to retire debt from prior year capital projects. In addition, \$3.1 million was transferred to the Capital Projects Fund to eliminate a deficit that existed in that fund.

The Transportation Fund shows a decrease in fund balance of \$1.6 million. Revenues were \$3.1 million and expenditures were \$3.6 million. The general levy in this fund was reduced to allow increased levy extensions in other funds. Expenditures for purchased services increased by 11.2% this year due to a change in vendor used for transportation services in the district. The fund deficit for the Transportation Fund is \$.3 million at year end which is intended to be offset by future tax levies.

The fund balance of the Municipal Retirement/Social Security Fund increased by \$2.4 million during the year. A shift in the property tax levy from the General Fund to this fund helped eliminate the fund deficit of \$2.3 million that existed at the beginning of the year. The fund balance at year end is \$.1 million.

The Debt Service Fund revenues of \$8.1 million and transfers in of \$2.1 million were exceeded by expenditures of about \$10.3 million for the year. Additional transactions include the issuance of refunding bonds and the establishment of an escrow to retire the refunded bonds. The Debt Service Fund has a fund balance of \$1.3 million at year end.

The Capital Projects Fund had revenues of \$20 thousand and expenditures of about \$8 thousand this year. A transfer from the Operations and Maintenance Fund of \$3.1 million was made during the year. The fund balance at year end is \$.5 million.

Capital Asset and Debt Administration

Capital Assets

By the end of 2015, the District had invested \$131.0 million in a broad range of capital assets, including land, school buildings, an administrative office, and equipment (see Figure A-9; more detailed information about capital assets can be found in Note E to the financial statements). Total depreciation expense for the year was approximately \$3.2 million, and net improvements and additions amounted to about \$4.0 million. Capital assets, net of depreciation, totaled \$89.8 million at June 30, 2015.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

	2015	2014	\$ change	% change
Land	\$3,234,393	\$3,234,393	\$0	0%
Buildings and Improvements	116,669,968	115,446,894	1,223,074	1.3
Equipment	10,329,783	7,677,214	2,652,569	34.0
Vehicles	706,276	713,778	(7,502)	-1.2
Construction in Progress	98,240	<u>0</u>	98,240	100.0
Total	131,038,660	127,072,279	3,966,381	3.1
Less accumulated depreciation	(41,188,910)	(37,959,547)	(3,229,363)	8.5
Net capital assets	\$89,849,750	\$89,112,732	737,018	0.8

The District maintains a Five-Year Capital Project Program designed to identify, quantify, and plan all future major capital expenditures. This program provides for the District to address routine maintenance and repairs of existing capital assets and also facilitates the prioritization of new capital assets being considered each year.

Long-Term Debt

At year-end, the District had \$61.5 million in general obligation bonds and other long-term liabilities outstanding – as shown in Figure A-10. (More detailed information about the District's long-term liabilities is presented in Note F to the financial statements.)

The District retired \$8.3 million of outstanding bonds and debt certificates during the year.

- \$21.6 million of new bonds were issued in the year to refund bonds from 2004 creating an economic savings of \$2.0 million for the District.
- The legal debt margin is \$212 million, or 81% unused, of the total authority of \$262 million.

	<u>2015</u>	<u>2014</u>	\$ change	% change
General obligation bonds	\$41,926,747	\$49,793,241	\$(7,866,494)	-15.8%

Compensated Absences	363,333	313,853	49,480	15.8
Total	\$61,472,529	\$65,943,469	\$(4,470,940)	-6.8

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

Factors Bearing on the District's Future

Property taxes account for 70.1% of the District's governmental fund revenue. Accordingly, the future expectations for this funding source have great impact on the District's projected revenue stream. The property tax limitation law (tax cap) limits the amount of annual property tax revenue increase to the lesser of 5% or the consumer price index for all urban consumers (CPI-U). The CPI-U limit for the 2014 and 2015 tax extensions have already been established and are 1.5% and 0.8%, respectively. These limits will impact the property tax revenue to be reflected in the 2015-16 and 2016-17 years respectively. Long-term projections for the CPI-U reflect an annual increase of 1.7% for the three fiscal years following 2016-17.

The drop in the economy starting in the last quarter of calendar 2008 caused the District to lower interest rate projections, and ultimately, to reduce the expenditure budgets for the 2009-10 fiscal year by \$750,000. This represented a reduction of about 1.0% of the budgets of the four individual funds the District commonly refers to, on a combined basis, as our operating funds. Those four funds are the Educational, Operations and Maintenance, Transportation, and Municipal Retirement/Social Security Funds.

Continued distress in the economy, and particularly the negative financial condition and outlook for the State of Illinois, caused the District to make more reductions in the operating fund budget for the 2010-11 fiscal year. It was estimated that up to \$2.0 million of State support could be cut or withheld during that year. To address this concern, all salary increases not already set by multi-year contracts were either frozen or nominally increased. Supply allocations to each campus were lowered and energy management efforts were stepped up to reduce costs of operating the buildings. In addition, all major program areas were reviewed for efficiency. Several programs were restructured so that content delivery and educational services would be held constant, or even improved, but at a lower cost. Finally, user fees were increased slightly to help support and retain certain programs that might otherwise need to be eliminated due to cost constraints. The specific changes were chosen and implemented in such a manner so as to have the least amount of impact, if any, upon our educational programs.

Ultimately, the State legislature could not agree on a way to balance the 2010-11 through 2014-15 State budgets and a dramatic reduction in funding to schools, if it is to occur, now appears to be postponed at least until 2016-17. As a precaution, the District has initiated a process to reduce the currently projected Governmental Fund expenditures for the 2016-17 fiscal year, by another \$1.0 million, to be better prepared to face any future reductions in funding when the State does eventually balance its own budget.

Changes in student enrollments, and the District's desire to consistently maintain appropriate pupil to teacher ratios, are the factors that most affect operating costs. Enrollment in 2014-15 was 4,944 students. Enrollment is expected to increase slightly next year and then stabilize at a level of about 5,100 for the foreseeable future. The District intends to keep pupil-to-teacher ratios constant going forward.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

The District has adopted a balanced budget for the fiscal year ending June 30, 2016 and projections for future year operations reflect a balanced budget, or surplus, for each of the next four years as well. These projections provide for the District's expectation that we will be able to continue to offer a broad range of high quality educational programs and opportunities to the communities we serve. Further, those projections do provide that the existing facilities, infrastructure and equipment will be maintained properly without requiring increased support from our taxpayers.

During the 2013-14 fiscal year the District purchased and completely renovated a 10,000 square foot building to house the District 99 Transition program. This program serves special needs students age 19 to age 22 by teaching them life skills. The new building is not at full capacity and we are looking for opportunities to use the facility, going forward, to serve other special needs students there as opposed to serving them outside of our district. We see this as being potentially more cost effective, and more importantly, more appropriate and educationally beneficial for our students.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District Controller at the District 99 Administrative Service Center, 6301 S. Springside Avenue, Downers Grove, IL 60516.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION For the Year Ended June 30, 2015

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances - governmental funds	9	\$	2,147,077
Net capital assets used in governmental activities and included in the statement of net position do not require the expenditure of financial resources and, therefore, are not reported in the governmental funds balance sheet.			89,849,750
The net other postemployment asset resulting from contributions in excess of the annual required contribution is not a current financial resource and, therefore, is not reported in the fund financial statements.			1,340,430
Deferred charges included in the statement of net position are not available to pay for current period expenditures and, accordingly, are not included in the governmental funds balance sheet.			799,757
Deferred outflows and inflows of resources related to pensions are applicable to future periods and, therefore, are not reported in the governmental funds:			
Deferred outflows of resources related to pensions Deferred outflows of 2015 employer contributions related to pensions	\$ 3,052,571 1,001,141		4,053,712
Deferred inflows of resources related to pensions			(1,689,761)
Interest on long-term liabilities accrued in the statement of net position will not be paid with current financial resources and, accordingly, is not recognized in the governmental funds balance sheet.			(203,880)
Long-term liabilities included in the statement of net position are not due and payable in the current period and, accordingly, are not reported in the governmental funds balance sheet.		_	(61,472,529)
Net position of governmental activities	9	\$_	34,824,556

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended June 30, 2015

Amounts reported for governmental activities in the statement of activities are different because:				
Net change in fund balances - total governmental funds	\$	(1,910,883)		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense in the current period.		737,018		
The net other post employment asset resulting from contributions in excess of the annual required contribution is not a financial resource and, therefore, is not reported in the funds.		581,228		
Changes in deferred outflows and inflows of resources related to pensions are reported only in the statement of activities:				
Deferred outflows and inflows of resources related to IMRF pension		3,020,746		
Deferred outflows and inflows of resources related to TRS pension		(1,681,867)		
Accrued interest reported in the statement of activities does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds.		90,882		
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds.		5,523,986		
Governmental funds report the effect of premiums, discounts, and similar items when the debt is issued. However, these amounts are deferred and amortized in the statement of activities. This is the amount of the current year, net effect of these differences.		(1,252,985)		
Accrued interest revenue that was deferred in the governmental funds at the beginning of the year.	_	(14,839)

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Community High School District 99 (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as Generally Accepted Accounting Principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are described below.

1. Reporting Entity

The District is located in DuPage County, Illinois. The District is governed by an elected Board of Education. The Board of Education maintains final responsibility for all personnel, budgetary, taxing, and debt matters.

The District includes all funds of its operations that are controlled by or dependent upon the District, as determined on a basis of financial accountability. Financial accountability includes appointment of the organization's governing body, imposition of will, and fiscal dependency. The accompanying financial statements include only those funds of the District, as there are no organizations for which it has financial accountability.

Also, the District is not included as a component unit in any other governmental reporting entity, as defined by GASB pronouncements.

2. New Accounting Pronouncement

The Governmental Accounting Standards Board (GASB) has issued Statement No. 68, *Accounting and Financial Reporting for Pensions*, which was implemented by the District during the fiscal year ended June 30, 2015. This Statement established standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expenses on the government-wide financial statements. For defined benefit pensions, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute the present value to periods of employee service.

The Governmental Accounting Standards Board (GASB) has issued Statement No. 71, *Pension Transition For Contributions Made Subsequent to the Measurement Date - an Amendment of GASB Statement No.* 68, and was implemented by the District during the fiscal year ended June 30, 2015. This Statement established standards for measuring amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. New Accounting Pronouncements (Continued)

Specific changes to the District's financial statements relate to the recognition of net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense. See Note J and Note O for the effects of this restatement.

3. Fund Accounting

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

Funds are classified into the following categories: governmental and fiduciary.

Governmental funds are used to account for all or most of the District's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the servicing of general long-term debt (Debt Service Fund), and the acquisition or construction of major capital facilities (Capital Projects Fund). The General Fund is used to account for all activities of the general government not accounted for in some other fund. The District considers all governmental funds to be major.

Fiduciary funds are used to account for assets held on behalf of outside parties (permanent funds), including other governments, or on behalf of other funds within the District (agency funds). They follow the accrual basis of accounting.

4. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the nonfiduciary activities of the District. The effect of interfund activity has been eliminated from these statements. Governmental activities normally are supported by taxes, intergovernmental revenues, and local fees.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as general revenues.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Government-Wide and Fund Financial Statements (Continued)

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

a. General Fund

The *General Fund* includes the Educational Account, and the Working Cash Account. The Educational Account is the District's primary operating account. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The Working Cash Account is for the financial resources held by the District to be used as temporary interfund loans for working capital requirements. Money loaned by the Working Cash Account to other funds must be repaid within one year. As allowed by the School Code of Illinois, this Fund may be permanently abolished and become part of the Educational Account or it may be partially abated to any fund in need as long as the District maintains a balance in the Working Cash Account of at least .05% of the District's current equalized assessed valuation. In 2015, the District abated and subsequently abolished the Working Cash account. See Note G.

b. Special Revenue Funds

The special revenue funds are used to account for and report the proceeds of specific revenue sources (other than those accounted for in the Debt Service Fund, Capital Projects Fund, or fiduciary funds) that are legally restricted to expenditures for specified purposes.

Each of the District's special revenue funds has been established as a separate fund in accordance with the fund structure required by the state of Illinois for local educational agencies. These funds account for local property taxes restricted to specific purposes. A brief description of the District's special revenue funds is as follows:

Operations and Maintenance Fund - accounts for all revenues and expenditures made for operations, repair, and maintenance of the District's building and land. Revenues consist primarily of local property taxes.

Transportation Fund - accounts for all revenue and expenditures made for student transportation. Revenues are derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement/Social Security Fund - accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund, payments to Medicare, and payments to the Social Security System for noncertified employees. Revenues to finance contributions are derived primarily from local property taxes and personal property replacement taxes.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Government-Wide and Fund Financial Statements (Continued)

c. Debt Service Fund

Debt Service Fund - is used for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. The primary revenue sources are local property taxes levied specifically for debt service and transfers from other funds.

d. Capital Projects Fund

Capital Projects Fund - accounts for financial resources to be used for the acquisition or construction of major capital facilities. Revenues are derived from bond proceeds or transfers from other funds.

e. Fiduciary Funds

The Fiduciary Funds account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments, or other funds.

The Agency Fund - includes student activity funds. These funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. Although the Board of Education has the ultimate responsibility for activity funds, they are not local education agency funds. Student activity funds account for assets held by the District which are owned, operated, and managed generally by the student body, under the guidance and direction of adults or a staff member, for educational, recreational, or cultural purposes. They account for activities such as student yearbook, and student clubs and council.

The *Private Purpose Trust Fund* - is accounted for on the flow of economic resources measurement focus and uses the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. The Private Purpose Trust Fund accounts for scholarship and memorial trust funds.

5. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues and additions are recorded when earned, and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collectible within the current period and soon enough thereafter to pay liabilities of the current period. The District considers most revenues available if they are collected within 60 days after year-end. Revenues that are paid to the District by the Illinois State Board of Education are considered available if they are vouchered by year-end. Expenditures generally are recorded when a fund liability is incurred. However, debt service expenditures are recorded only when payment is due.

Property taxes, replacement taxes, interest, and intergovernmental grant revenues associated with the current fiscal period are all considered to be susceptible to accrual and are recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports unearned and unavailable revenue on its financial statements. Unearned and unavailable revenue arises when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability or deferred inflow of resources for unearned or unavailable revenue is removed from the balance sheet and revenue is recognized. Governmental Funds also defer revenue recognition in connection with resources received, but not yet earned.

6. Deferred Outflows / Deferred Inflows

In addition to assets, the statement of net position and the governmental funds balance sheet may report deferred outflows of resources. Deferred outflows of resources represent a consumption of net position / fund balance that applies to future periods. At June 30, 2015, the District has deferred outflows of resources associated with a loss on refunding of bonds in prior years, and related to pensions. In addition to liabilities, the District may report deferred inflows of resources. Deferred inflows of resources represent the acquisition of resources that is applicable to a future reporting period. At June 30, 2015, the District reported deferred inflows of resources related to pensions, and property taxes levied for a future period.

7. Deposits and Investments

Investments are stated at fair value. Due to the nature of the District's investments, fair value approximates cost. No amortization is made to interest income for discounted federal securities. Gains and losses on the sale of investments are recorded as interest income at the date of sale or maturity.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Prepaid Items

Prepaid items are certain payments to vendors that reflect costs applicable to the next fiscal year and are recorded as prepaid items in both government-wide and fund financial statements. Reported prepaid expenditures are equally offset by fund balance reserves, which indicate that they do not constitute "available spendable resources", even though they are a component of current assets. Prepaid expenditures are accounted for using the consumption method, that is, they are recognized as an expenditure as they are used.

9. Capital Assets

Capital assets, which include land, buildings and improvements, vehicles, equipment, and construction in progress are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual or group cost of more than \$10,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Construction in progress is stated at cost and includes engineering, design, material, and labor incurred for planned construction. No provision for depreciation is made on construction in progress until the asset is completed and placed in service.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and improvements	50
Vehicles	10 - 15
Equipment	7 - 25

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

10. Accumulated Unpaid Vacation and Sick Pay

Employees who work a twelve-month year are entitled to be compensated for vacation time. Vacations are usually taken within the year. Employees may carry over up to 10 vacation days into the next fiscal year. Payment for unused vacation days only occurs upon termination of employment.

All certified faculty receive 15 sick days per year. Administrative certified and noncertified employees receive up to 18 days based on the number of days they work per year. Unused sick leave days accumulate to a maximum of 340 days. Upon retirement, a certified faculty or administrator may apply up to 340 days of unused sick leave toward service credit for the Teacher's Retirement System (TRS). Noncertified administrators may apply up to 190 days of unused sick leave toward service credit for the Illinois Municipal Retirement System (IMRF). The District does not reimburse certified faculty or administrative employees for unused sick days remaining upon termination of employment or retirement.

Exempt educational support personnel receive 18 sick days per year which accumulate to a maximum of 260 days. All other noncertified employees receive 10 to 18 days per year, which accumulate to a maximum of 240 days. Upon retirement, a noncertified support employee may apply up to 221 days of unused sick leave toward service credit for the Illinois Municipal Retirement Fund (IMRF). The District does not reimburse employees for unused sick days remaining upon termination of employment. Upon retirement, however, educational support personnel who are at least 55 years of age with a minimum of 5 years of service are reimbursed for unused sick days not applied toward IMRF service credit at a rate of \$30 per day.

11. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plan and additions to/deductions from the pension plan's fiduciary net position have been determined on the same basis as they are reported by the pension plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

12. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts, and losses on refunding of bonds, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount or loss on refunding. Bond issuance costs are expensed as they are incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, losses on refunding, and bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Losses on refunding and issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

13. Personal Property Replacement Taxes

Personal property replacement tax revenues for the calendar year are first allocated to the Municipal Retirement/Social Security Fund with the balance allocated at the discretion of the District.

14. Budgetary Data

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted at the fund level for the governmental funds. The annual appropriated budget is legally enacted and provides for a legal level of control at the fund level. All annual appropriations lapse at fiscal year-end.

15. Restricted Net Position

For the government-wide financial statements, net position is reported as restricted when constraints placed on net position are either: (1) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments, (2) imposed by law through constitutional provisions, or (3) imposed by enabling legislation. All of the District's restricted net position was restricted as a result of enabling legislation.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources, as they are needed.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

16. Fund Balance

Governmental funds report five components of fund balance: nonspendable, restricted, committed, assigned, and unassigned.

- a. *Nonspendable* includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. The nonspendable in form criteria includes items that are not expected to be converted to cash such as prepaid items, long-term portions of interfund loans receivable, or inventories.
- b. Restricted refers to amounts that are subject to outside restrictions such as creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through enabling legislation. Special revenue funds, as well as the Debt Service and Capital Projects funds are by definition restricted for those specified purposes.
- c. Committed refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision making authority (the Board of Education). The Board of Education commits fund balances by passing a resolution. Amounts committed cannot be used for any purpose unless the District removes or changes the specific use by taking the same type of formal action it employed to previously commit those funds. As of June 30, 2015, the District has no committed fund balances.
- d. *Assigned* refers to amounts that are constrained by the District's intent to be used for a specific purpose, but are neither restricted or committed. Intent may be expressed by the Board of Education or the individual the Board of Education delegates the authority to assign amounts to be used for specific purposes. The Board of Education has designated the Controller with the ability to assign fund balances.
- e. *Unassigned* refers to all spendable amounts not contained in the other four classifications described above. In funds other than the general fund, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances, and finally they act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

Governmental fund balances reported on the fund financial statements at June 30, 2015 are as follows:

The nonspendable fund balance in the General Fund consists of \$1,929 for prepaid items. The assigned fund balance in the General Fund is comprised of \$1,596,821 for health claims. All restricted fund balances are for the purpose of the restricted funds as described in Note A-4.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

17. Use of Estimates

In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of Certain Differences Between the Governmental Funds Balance Sheet and the Government-wide Statement of Net Position

The governmental funds balance sheet includes a reconciliation between total fund balances – governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "Long-term liabilities included in the statement of net position are not due and payable in the current period. Accordingly, these are not included in the governmental funds balance sheet." The details of this difference are as follows:

General obligation bonds	\$	30,755,000
Capital appreciation bonds		9,276,349
Debt certificates		5,750,000
Capital lease		1,760,180
Unamortized bond premiums		1,916,223
Compensated absences		363,333
IMRF net pension liability		7,407,903
TRS net pension liability	_	4,243,541
	_	
Net adjustment to reduce fund balance - total governmental funds		
to arrive at net position – governmental activities	\$	61,472,529
to arrive at het position governmental activities	Ψ	01,472,329

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

2. <u>Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures,</u> and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental funds statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net change in fund balance - total governmental funds and change in net position - governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this difference are as follows:

Capital outlay	\$ 4,029,215
Depreciation expense	(3,292,197)
Net adjustment to increase net change in fund balance - total	
governmental funds to arrive at change in net position -	
governmental activities	\$ 737,018

Another element of that reconciliation states that "The issuance of long-term debt (e.g. bonds, compensated absences, and employee obligations) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds." The details of this difference are as follows:

Issuance of general obligation bonds	\$	(21,550,000)
Capital lease proceeds		(1,760,180)
Refunding of general obligation bonds		22,845,000
Principal repayments		
General obligation bonds		8,105,000
Debt certificates		405,000
Capital lease		148,425
Accreted interest		(477,212)
IMRF pension liability, net		(4,102,303)
TRS pension liability, net		1,959,736
Compensated absences, net	_	(49,480)
Net adjustment to decrease net change in fund balances – total governmental funds to arrive at change in net position of	•	
governmental activities	\$	5.523.986

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE C - DEPOSITS AND INVESTMENTS

The District's investment policy is in line with State Statutes. The investments that the District may purchase are limited by Illinois law to the following: (1) securities that are fully guaranteed by the U.S. government as to principal and interest; (2) certain U.S. government agency securities; (3) interest-bearing savings accounts, interest-bearing certificates of deposit or time deposits or any other investments constituting direct obligations of any bank as defined by the Illinois Banking Act; (4) short-term discount obligations of corporations organized in the United States with assets exceeding \$500,000,000; (5) interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation or school district; (6) fully collateralized repurchase agreements; (7) the State Treasurer's Illinois and Prime Funds; and (8) money market mutual funds and certain other instruments.

At June 30, 2015, the District's cash and investments consisted of the following:

	Governmental	Fiduciary	Total
Cash and investments	\$ 46,217,833	\$ 2,203,250 \$	48,421,083

For disclosure purposes, this amount is segregated into three components, as follows:

	_	Total
Cash on hand	\$	500
Deposits with financial institutions		44,505,583
Tax anticipation warrants	_	3,915,000
	\$_	48,421,083

1. Interest Rate Risk

The District's investment policy seeks to ensure preservation of capital in the District's overall portfolio. Return on investment is of secondary importance to safety of principal and liquidity. The policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, the policy requires the District investment portfolio to be sufficiently liquid to enable the District to meet all operating requirements as they come due. A portion of the portfolio is required to be invested in readily available funds to ensure appropriate liquidity.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

2. Credit Risk

State statutes limit the investments in commercial paper and corporate bonds to the top three ratings of two nationally recognized rating organizations. The District's investment policy authorizes investments in any type of security as permitted by Sections 2 through 6 of the Illinois Public Funds Investment Act. As of June 30, 2015, the District has no investments in commercial paper or corporate bonds.

The District's investments in tax anticipation warrants represents a short term investment obtained from a financial institution that is backed by property taxes that are collected on behalf of another Illinois school district. These investments mature at various dates through September 2015. The investments are not collateralized or insured based upon the nature of the investments. Subsequent to year end, the District collected the tax anticipation warrant investment balances in full.

3. Concentration of Credit Risk

The District's investment policy requires diversification of the investment portfolio to minimize the risk of loss resulting from overconcentration in a particular type of security, risk factor, issuer, or maturity. The policy requires diversification strategies to be determined and revised periodically by the District's Investment Officer to meet the District's ongoing need for safety, liquidity, and rate of return.

4. Custodial Credit Risk

With respect to deposits, custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured by collateral in the event of default or failure of the financial institution holding the funds. At June 30, 2015, the bank balances of the District's deposits with financial institutions totaling \$44,694,001 were fully insured or collateralized. The District's investment instruments are either held by the District or by the District's agent.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE D - PROPERTY TAXES RECEIVABLE

The District must file its tax levy resolution by the last Tuesday in December of each year. The District's 2014 tax levy resolution was approved by the Board on December 15, 2014. The District's property tax is levied each year on all taxable real property located in the District and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 (the lien date) in any year is liable for taxes of that year. The District's annual property tax levy is subject to two statutory limitations, individual fund rate ceilings and the Property Tax Extension Limitation Act (PTELA).

The County Clerk adds the Equalized Assessed Valuation of all real property in the District to the valuation of property assessed directly by the state (to which the Equalization Factor is not applied) to arrive at the base amount (the Assessment Base) used to calculate the annual tax rates, as described above. The Equalized Assessed Valuation for the extension for the 2014 tax levy was \$3,798,372,691.

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lesser of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent that there is "new growth" in the District's tax base. The new growth consists of new construction, annexations, and tax increment finance district property becoming eligible for taxation.

Property taxes are collected by the DuPage County Collector/Treasurer, who remits to the District its share of collections. Taxes levied in one year become due and payable in two equal installments: the first due on June 1 and the second due on September 1. Property taxes are normally collected by the District within 60 days of the respective installment dates.

The 2014 property tax levy is recognized as a receivable in fiscal 2015, net of estimated uncollectible amounts of approximately 1%. The District considers that the 2014 levy is to be used to finance operations in fiscal 2016. Therefore, the entire 2014 levy, including amounts collected in fiscal 2015, has been recognized as a deferred inflow of resources in the accompanying financial statements.

		\$_	47,138,627	\$	42,310,000	\$	40,031,349

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE F - LONG-TERM LIABILITIES (Continued)

2. General Obligation Bonds and Capital Appreciation Bonds (Continued)

At June 30, 2015, the District's future cash flow requirements for retirement of bond principal and interest were as follows:

Year Ending					
June 30	_	Principal	 Interest	_	Total
	-			_	
2016	\$	7,725,000 \$	\$ 1,272,437	\$	8,997,437
2017		8,190,000	906,287		9,096,287
2018		8,625,000	572,125		9,197,125
2019		9,030,000	256,219		9,286,219
2020		3,305,000	70,219		3,375,219
2021-2022	_	5,435,000	 23,719	_	5,458,719
	•			_	
Total	\$	42,310,000	\$ 3,101,006	\$	45,411,006

These payments will be made from amounts budgeted from the debt service tax levies in future periods. There is \$1,284,260 in the Debt Service Fund to service the outstanding bonds payable.

The District is subject to the Illinois School Code, which limits the bond indebtedness to 6.9% of the most recent available equalized assessed valuation of the District. As of June 30, 2015, the statutory debt limit for the District was \$262,087,716 of which \$212,267,536 is fully available.

During the fiscal year ended June 30, 2015, the District issued \$21,550,000 of General Obligation Refunding School Bonds, Series 2014. This bond issuance was used to refund certain principal and interest maturities on the District's Series 2004 bonds. This transaction resulted in a theoretical economic gain (the difference between the present value of the debt service payments on the old and new debt) of \$1,977,788.

In prior years, the District defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2015, \$23,190,000 of bonds outstanding are considered defeased.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE F - LONG-TERM LIABILITIES (Continued)

3. Debt Certificates

In 2006, the District entered into a financing agreement with Cole Taylor Bank for \$540,000 to finance the acquisition, installation, and other expenses related to a new accounting system. The District received proceeds in the amount of \$540,000 and deposited them in the General Fund. The debt certificates mature on June 30, 2017 and have an interest rate of 4.00%.

In 2007, the District entered into a financing agreement with Hinsdale Bank for \$4,250,000 to finance the renovation of the District's science laboratories. The District received proceeds in the amount of \$4,250,000 and deposited the proceeds in the Capital Projects Fund. The debt certificates mature on December 31, 2026 and have interest rates of 3.86% to 4.25%.

In 2008, the District entered into a financing agreement with Cole Taylor Bank for \$3,635,000 to finance the construction of Downers Grove South's second access road. The District received proceeds in the amount of \$3,635,000 and deposited the proceeds in the Capital Projects Fund. The debt certificates mature on December 31, 2027 and have interest rates of 3.75% to 4.20%.

Annual debt service requirements to maturity for debt certificates of participation are as follows:

June 30, Principal Interest Total 2016 \$ 415,000 \$ 220,897 \$ 635,8°	
2016 \$ 415.000 \$ 220.897 \$ 635.8	
2016 \$ 415,000 \$ 220,897 \$ 635.8	~ —
	9 7
2017 435,000 203,904 638,90	04
2018 385,000 186,517 571,5	17
2019 400,000 171,514 571,5	14
2020 415,000 155,801 570,80	01
2021-2025 2,355,000 514,569 2,869,5	59
2026-2028	45
\$ 5,750,000 \$ 1,524,547 \$ 7,274,54	47

The obligations for the debt certificates will be repaid from the Debt Service Fund with funds provided by the General Fund and Operations and Maintenance Fund.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE F - LONG-TERM LIABILITIES (Continued)

4. Capital Lease

The District leased various computer equipment, with a gross asset cost of \$1,760,180, under a capital lease which expires on July 1, 2017. The lease requires annual payments of \$595,251, including interest at 1.28%. The following is a schedule by years of the future minimum lease payments, together with the present value of the minimum lease payments as of June 30, 2015:

Years Ending		Minimum
June 30,	_	Payments
		_
2016	\$	595,251
2017		595,251
2018	_	595,251
		_
Total minimum lease payments		1,785,753
Less amount representing interest		(25,573)
Present value of minimum lease payments	\$_	1,760,180

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE G - INTERFUND TRANSFERS

The following is a schedule of interfund transfers as shown on the Statement of revenues, expenditures, and changes in fund balances (deficits).

То	From	Amount	Principal Purpose
Operations and Maintenance Fund	General (Working Cash Account) Fund \$	10,600,000	Abatement of Working Cash
Municipal Retirement/ Social Security Fund	General (Working Cash Account) Fund	200,000	Abatement of Working Cash
Capital Projects Fund	Operations and Maintenance Fund	3,135,000	Capital projects
Operations and Maintenance Fund	General (Educational Account) Fund	5,140,000	Operations and maintenance
Operations and Maintenance Fund	Transportation Fund	1,200,000	Operations and maintenance
Debt Service Fund	General (Educational Account) Fund	1,508,062	Principal and interest payments on long-term debt
Debt Service Fund	Operations and Maintenance Fund	574,985	Principal and interest payments on long-term debt
	\$	22,358,047	

The following transfer occurred within the General Fund and was not presented in the statement of revenues, expenditures, and changes in fund balances (deficits).

То	From	Amount	Principal Purpose
Educational Account	Working Cash Account	2,301,164	Abolishment of Working Cash Account

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE H - DEFICIT FUND BALANCES

At June 30, 2015 the following funds have deficit fund balances:

Fund		Deficit
	_	
Operations and Maintenance	\$	1,211,854
Transportation		349,484

District management expects to fund these deficits through future property tax revenues.

NOTE I - RISK MANAGEMENT

The District is exposed to various risks of loss related to employee health benefits; workers' compensation claims; theft of, damage to, and destruction of assets; and natural disasters. The District has purchased insurance from private insurance companies for general liability, workers' compensation, and other coverages not included below. Premiums have been recorded as expenditures in the appropriate funds. There have been no significant reductions in insurance coverage from coverage in the prior years. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years.

The District is self-insured for medical and dental coverage that is provided to District personnel. A third-party administrator administers claims for a monthly fee per participant. Expenditures are recorded, as incurred, in the form of direct contributions from the District to the third-party administrator for payment of employee health claims and administration fees. The District's liability will not exceed \$115,000 per employee, as provided by stop-loss provisions incorporated in the plan.

At June 30, 2015, total unpaid claims, including an estimate of claims that have been incurred but not reported (IBNR) to the administrative agent, totaled \$859,851. These estimates are developed based on reports prepared by the administrative agent. The District does not allocate overhead costs or other nonincremental costs to the claims liability.

Balances of medical and dental claims liabilities during the past two years are as follows:

	_	June 30, 2015	_	June 30, 2014

NOTE J - PENSION LIABILITIES

1. Teachers' Retirement System of the State of Illinois

Plan Description

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at http://trs.illinois.gov/pubs/cafr; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 877-0890, option 2.

Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual three percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE J - PENSION LIABILITIES (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2015, was 9.4 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On-behalf Contributions to TRS

The state of Illinois makes employer pension contributions on behalf of the employer. For the year ended June 30, 2015, state of Illinois contributions recognized by the District were based on the state's proportionate share of the collective net pension liability associated with the District, and the District recognized revenue and expenditures of \$20,018,640 in pension contributions from the state of Illinois.

2.2 Formula Contributions

Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2015, were \$240,145, and are deferred because they were paid after the June 30, 2014 measurement date.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE J - PENSION LIABILITIES (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

Contributions (Continued)

Federal and Special Trust Fund Contributions

When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under a policy adopted by the TRS Board of Trustees that has been in effect since the fiscal year ended June 30, 2006, employer contributions for employees paid from federal and special trust funds will be the same as the state contribution rate to TRS. Public Act 98-0674 now requires the two rates to be the same.

For the year ended June 30, 2015, the employer pension contribution was 33.00 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2015, salaries totaling \$43,315 were paid from federal and special trust funds that required employer contributions of \$14,294. These contributions are deferred because they were paid after the June 30, 2014 measurement date.

Early Retirement Cost Contributions

Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members retiring under the Early Retirement Option (ERO). The payments vary depending on the member's age and salary. The maximum employer ERO contribution under the current program is 146.5 percent and applies when the member is age 55 at retirement. For the year ended June 30, 2015, the District paid \$78,054 to TRS for employer ERO contributions.

The District is also required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2015, the District paid \$4,094 to TRS for employer contributions due on salary increases in excess of 6 percent and \$67,197 for sick leave days granted in excess of the normal annual allotment.

NOTE J - PENSION LIABILITIES (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 4,243,541
State's proportionate share of the net pension liability associated with the District	248,645,969
Total	\$ 252,889,510

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013, and rolled forward to June 30, 2014. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2014, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2014, the District's proportion was 0.0069728248 percent.

The net pension liability as of the beginning of this first measurement period under GASB Statement No. 68 was measured as of June 30, 2013, and the total pension liability was based on the June 30, 2013, actuarial valuation without any roll-up. The District's proportion of the net pension liability as of June 30, 2013, was based on the District's share of contributions to TRS for the measurement year ended June 30, 2013, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2013, the District's proportion was 0.0099016152 percent.

NOTES TO THE FINANCIAL STATEMENTS

NOTE J - PENSION LIABILITIES (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

For the year ended June 30, 2015, the District recognized pension expense of \$20,115,220 and revenue of \$20,018,640 for support provided by the state. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred		Deferred
		Outflows of		Inflows of
	_	Resources		Resources
Differences between expected and actual experience Net difference between projected and actual earnings on	\$	2,242	\$	-
pension plan investments		_		213,270
Changes in proportion and differences between District contributions and proportionate share of contributions	-	-	. <u>-</u>	1,476,491
Total deferred amounts to be recognized in pension expense in the future periods		2,242		1,689,761
District contributions subsequent to the measurement date		254,439		
	\$	256,681	\$	1,689,761

The District reported \$254,439 as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	Net Deferred Amounts			
2016	\$	411,145		
2017		411,145		
2018		411,145		
2019		411,145		
2020		42,939

NOTE J - PENSION LIABILITIES (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Actuarial Assumptions

The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.00 percent

Salary increases 5.75 percent, average, including inflation

Investment rate of return 7.50 percent, net of pension plan investment

expense, including inflation

Mortality rates were based on the RP-2000 White Collar Table with projections using scale AA that vary by member group.

For GASB disclosure purposes, the actuarial assumptions for the years ended June 30, 2014 and 2013 were assumed to be the same. However, for funding purposes, the actuarial valuations for those two years were different. The actuarial assumptions used in the June 30, 2014 valuation were based on updates to economic assumptions adopted in 2014 which lowered the investment return assumption from 8.0 percent to 7.5 percent. The salary increase and inflation assumptions were also lowered. The actuarial assumptions used in the June 30, 2013 valuation were based on the 2012 actuarial experience analysis and first adopted in the June 30, 2012 valuation. The investment return assumption was lowered from 8.5 percent to 8.0 percent and the salary increase and inflation assumptions were also lowered. Mortality assumptions were adjusted to anticipate continued improvement in mortality.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

Discount Rate

The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially-funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. Therefore, the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

TRS Fiduciary Net Position

Detailed information about the TRS's fiduciary net position as of June 30, 2014 is available in the separately issued TRS *Comprehensive Annual Financial Report*.

2. <u>Illinois Municipal Retirement Fund</u>

Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, postretirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed with the Illinois Municipal Retirement Fund (IMRF), the administer of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the <u>Benefits Provided</u> section below. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. That report is available for download at www.imrf.org.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE J - PENSION LIABILITIES (Continued)

2. Illinois Municipal Retirement Fund (Continued)

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of 3% of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2014, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	327
Inactive plan members entitled to but not yet receiving benefits	226
Active plan members	276
Total	829

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE J - PENSION LIABILITIES (Continued)

2. Illinois Municipal Retirement Fund (Continued)

Contributions

As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2014 was 12.82%. For the fiscal year ended June 30, 2015 the District contributed \$1,453,630 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The District's net pension liability was measured as of December 31, 2014. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2014:

Actuarial Cost Method Entry Age Normal
Asset Valuation Method Market Value of Assets

Inflation Rate 3.50%

Salary Increases 3.75% to 14.50% including inflation

Investment Rate of Return 7.48%

Projected Retirement Age Experience-based table of rates, specific to the type of eligibility

condition, last updated for the 2014 valuation pursuant to an

experience study of the period 2011-2013.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE J - PENSION LIABILITIES (Continued)

2. Illinois Municipal Retirement Fund (Continued)

Actuarial Assumptions (continued)

Mortality

For non-disabled retirees, the IMRF-specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF-specific mortality table was used with fully generational projections scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

	Portfolio	Long-Term
	Target	Expected Real Rate
Asset Class	Percentage	of Return
Domestic Equity	38%	7.60%
International Equity	17%	7.80%
Fixed Income	27%	3.00%
Real Estate	8%	6.15%
Alternative Investments	9%	5.25-8.50%
Cash Equivalents	1%	2.25%
Total	100%	-

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE J - PENSION LIABILITIES (Continued)

2. <u>Illinois Municipal Retirement Fund</u> (Continued)

Single Discount Rate

A Single Discount Rate of 7.48% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- a. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- b. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.56%, and the resulting single discount rate is 7.48%.

Changes in Net Pension Liability

The following table shows the components of the change in the District's net pension liability for the calendar year ended December 31, 2014:

3. Social Security/Medicare

Employees not qualifying for coverage under the Illinois Teachers' Retirement System or the Illinois Municipal Retirement Fund are considered "nonparticipating employees". These employees and those qualifying for coverage under the Illinois Municipal Retirement Fund are covered under Social Security/Medicare. The District paid the total required contribution for the current fiscal year.

NOTE K - OTHER POSTEMPLOYMENT BENEFITS

1. Teachers' Health Insurance Security (THIS)

The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE K - OTHER POSTEMPLOYMENT BENEFITS (Continued)

1. Teachers' Health Insurance Security (THIS) (Continued)

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. Effective July 1, 2012, in accordance with Executive Order 12-01, the plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund.

The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

On behalf contributions to the THIS Fund

The state of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to the THIS Fund from active members which were 1.02 percent of pay during the year ended June 30, 2015. State of Illinois contributions were \$422,323, and the District recognized revenue and expenditures of this amount during the year.

District contributions to the THIS Fund

The District also makes contributions to the THIS Fund. The District THIS Fund contribution was 0.76 percent during the year ended June 30, 2015. For the year ended June 30, 2015, the District paid \$314,672 to the THIS Fund, which was 100 percent of the required contribution.

Further Information on the THIS Fund

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp. The current reports are listed under "Central Management Services." Prior reports are available under "Healthcare and Family Services."

2. Retiree Health Plan

Plan Description

The District administers a single-employer defined benefit healthcare plan ("the Retiree Health Plan"). The plan provides the ability for retirees and their spouses to access the District's group health insurance plan during retirement, provided they are on the group health insurance plan at the time of retirement. Retirees are responsible to contribute a premium toward the cost of their insurance, which is determined by the Board. Retirees may also access dental and life insurance benefits on a "direct pay" basis. The plan does not issue a separate financial report.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE K - OTHER POSTEMPLOYMENT BENEFITS (Continued)

2. Retiree Health Plan (Continued)

As of June 30, 2015 the following employees were covered by the benefit terms:

Actives fully eligible to retire	47
Actives not yet fully eligible to retire	520
Retirees	313
Total	880

Funding Policy

Retirees under the age of 65 contribute the full active employee equivalent rate. Retirees have the option of choosing from an HMO or PPO plan through the District. Premiums for the plan are set by the Board of Education. Currently, the District contributes 0 percent to 100 percent to postemployment benefits, which varies for different employee groups. For fiscal year 2015, the District contributed \$1,539,169 toward the cost of the postemployment benefits for retirees.

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's estimated net OPEB asset for the Retiree Health Plan:

		June 30, 2015
Annual required contribution Interest on net OPEB asset Adjustment to annual required contribution	\$	963,002 (30,368) 25,307
Annual OPEB cost Less contributions made	-	957,941 (1,539,169)
Increase in net OPEB asset Net OPEB asset beginning of year	-	(581,228) (759,202)
Net OPEB asset end of year	\$	(1,340,430)

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE K - OTHER POSTEMPLOYMENT BENEFITS (Continued)

2. Retiree Health Plan (Continued)

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2015 and the two preceding fiscal years were as follows:

		Percentage	
Actuarial	Annual	Annual OPEB	
Valuation	OPEB	Cost	Net OPEB
Date	Cost	Contributed	Asset
6/30/15 \$	957,941	160.7% \$	(1,340,430)
6/30/14 *	863,788	143.0%	(759,202)
6/30/13	950,183	115.6%	(387,359)

^{*} Estimated using prior year information

Funding Status and Funding Progress

As of June 30, 2015 (most recent information available), the actuarial accrued liability for benefits was \$16,215,901, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) and the ratio of the unfunded actuarial accrued liability to the covered payroll were not available.

The projection of future benefit payments for an ongoing plan involved estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

NOTES TO THE FINANCIAL STATEMENTS June 30, 2015

NOTE K - OTHER POSTEMPLOYMENT BENEFITS (Continued)

2. Retiree Health Plan (Continued)

The following simplifying assumptions were made:

Actuarial valuation date

Data collection date

Actuarial cost method

July 1, 2014

August 2015

Entry Age

Amortization period Level percentage of projected

payroll

Remaining amortization period 30 years

Actuarial assumptions:

Projected salary increases 4.00%
Healthcare inflation rate 6.00% initial 5.00% ultimate

Mortality, Turnover, Disability,

Retirement ages Similar rates utilized for IMRF

Election at Retirement: 100% of eligible faculty members assumed to elect the District medical subsidy and Life insurance. 70% are assumed to elect TRS TRIP medical coverage and 30% another medical plan. 100% of eligible Administrator are assumed to elect the District medical subsidy and Life Insurance 100% of eligible support staff are assumed to elect the District medical subsidy.10% of all other IMRF employees are assumed to elect pay-all coverage continuation coverage at retirement.

<u>Coverage Status:</u> 100% Employees are assumed to continue in their current plan into retirement if a District medical plan is selected. Active employees with HMO Plan C coverage are assumed to elect HMO Plan D at retirement.

<u>Marital Status:</u> 40% of employees electing District coverage are assumed to be married and to elect spousal coverage with males three years older than females. Actual spouse data was used for current retirees.

NOTE L - CONSTRUCTION COMMITMENTS

As of June 30, 2015, the District is committed to approximately \$374,000 in the upcoming years, for various construction projects. These amounts will be paid from available fund balances.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE M - JOINT AGREEMENT

The District is a member of the School Association for Special Education in DuPage County (SASED), a joint agreement that provides certain special education services to residents of many school districts. The District believes that, because it does not control the selection of the governing authority, and because of the control over employment of management personnel, operations, scope of public service, and special financing relationships exercised by the joint agreement governing boards, these should not be included as component units of the District.

NOTE N - CONTINGENCIES

1. Litigation

In the normal course of operations, the District is subject to various litigation and claims. Although the outcome of these matters is not presently determinable, the resolution of these matters, should the outcome be unfavorable, is not expected by management to be significant.

2. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

NOTE O - PRIOR PERIOD ADJUSTMENT

The implementation of GASB 68 and 71 (Note A-2) required the District to report the net pension liability for IMRF and TRS. As a result of this implementation as of July 1, 2014 net position decreased by \$7,893,325, net pension liability (included in long-term liabilities) increased by \$8,918,397 and deferred outflows increased by \$1,025,072.

NOTE P - SUBSEQUENT EVENTS

Management has evaluated subsequent events through December 3, 2015, the date that these financial statements were available to be issued. Management has determined that no events or transactions have occurred subsequent to the statement of net position/balance sheet date that require disclosure in the financial statements.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION June 30, 2015

1. LEGAL COMPLIANCE AND ACCOUNTABILITY - BUDGETS

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual budgets are adopted at the fund level for the governmental funds. The annual budget is legally enacted and provides for a legal level of control at the fund level.

The Board of Education follows these procedures in establishing the budgetary data reflected in the financial statements:

- a) The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- b) Public hearings are conducted and the proposed budget is available for inspection to obtain comments.
- c) By September 30, the budget is legally adopted through passage of a resolution. By the last Tuesday in December of each year, a tax levy resolution is filed with the County Clerk to obtain tax revenues.
- d) Formal budgetary integration is employed as a management control device during the year for the governmental funds.
- e) Management is authorized to transfer budget amounts, provided funds are transferred between the same function and object codes. The Board of Education is authorized to transfer up to a legal level of 10% of the total budget between functions within a fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education after the public hearing process mandated by law.
- f) The budget amounts shown in the financial statements were originally adopted by the Board of Education on September 15, 2014.
- g) All budget appropriations lapse at the end of the fiscal year.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION June 30, 2015

2. EXPENDITURES IN EXCESS OF BUDGETS

The following funds had expenditures in excess of budgets at June 30, 2015:

Fund	 Variance
General	\$ 7,863,327
Operations and Maintenance	388,924

The District had expenditures in excess of the budget in the General fund primarily as a result of higher than anticipated on-behalf payments to TRS from the State of Illinois.

3. <u>TEACHERS' RETIREMENT SYSTEM OF THE STATE OF ILLINOIS</u>

Changes of Assumptions

Amounts reported in 2014 reflect an investment rate of return of 7.5 percent, an inflation rate of 3.0 percent and real return of 4.5 percent, and a salary increase assumption of 5.75 percent. In 2013, assumptions used were an investment rate of return of 8.0 percent, an inflation rate of 3.25 percent and real return of 4.75 percent, and salary increases of 6.00 percent. However, the total pension liability at the beginning and end of the year was calculated using the same assumptions, so the difference due to actuarial assumptions was not calculated or allocated.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION June 30, 2015

4. <u>SUMMARY OF ACUTARIAL METHODS AND ASSUMPTIONS USED IN THE CALCULATION OF</u> THE 2014 IMRF CONTRIBUTION RATE*

Valuation Date:

Notes Actuarially determined contribution rates are calculated as of December 31

each year, which are 12 months prior to the beginning of the fiscal year in

which contributions are reported.

Methods and Assumptions Used to Determine the 2014 Contribution Rate:

Actuarial Cost Method Aggregate Entry Age Normal
Amortization Method Level Percentage of Payroll, Closed
Remaining Amortization Period Non-Taxing bodies: 10-year rolling period.

Taxing bodies (Regular members): 29-year closed period until remaining

period reaches 15 years (then 15-year rolling period).

Early Retirement Incentive Plan liabilities: a period up to 10 years selected by

the Employer upon adoption of ERI.

Asset Valuation Method 5-year smoothed market; 20% corridor

Wage Growth 4.00%

Price Inflation 3.0% - approximate; no explicit price inflation assumption is used in this

valuation.

Salary Increases 4.40% to 16.00%, including inflation

Investment Rate of Return 7.50%

Retirement Age Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for the 2011 calculation pursuant to an experience

study of the period 2008-2010.

Mortality RP-2000 Combined Healthy Mortality Table, adjusted for mortality

improvements to 2020 using projection scale AA. For men, 120% of the table rates were used. For women, 92% of the table rates were used. For disabled lives, the mortality rates are the rates applicable to non-disabled lives set

forward 10 years.

Other Information:

Notes There were no benefit changes during the year.

^{*} Based on Valuation Assumptions used in the December 31, 2012 actuarial valuation.

Source of information: DuPage County Clerk

Note: The County assesses property at approximately 33.3% of actual value for all types of real property, under the County's jurisdiction. Estimated actual value is calculated by dividing assessed value by that percentage. Tax rates are per \$100 of assessed value.

The tax levy year is defined as the first preceding calendar year of each fiscal year.

The Tax Levy Year is defined as the first preceding calendar year of each fiscal year.

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lesser of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year.
